THE SCORE given at the left of the name of a variety is the percentage rating of value as given by The American Peony Society. We aim to keep only those scoring 75% or better. This gives us nearly 500 of the best varieties—an unexcelled collection. Where the score is not given, it indicates that the variety has not been scored, being either too new or not generally in collections. Where the price is not given our stock is too limited to offer the variety for sale.
